

SIX MEN FALL IN FREIGHT ELEVATOR

BRICKLAYERS ARE INJURED IN ACCIDENT

Miraculously Escape Instant Death—Taken to Hospital Where Injuries Are Dressed.

Six bricklayers miraculously escaped death in the fall of a freight elevator at the Prescott School on Campbell street, between Ninth and Tenth, early this morning.

One man sustained a compound fracture of his left arm and may lose that member. The others escaped with minor injuries.

The elevator dropped from the third story to the bottom of the shaft, a distance of more than thirty feet, where the men were found piled in a heap.

THE MEN INJURED.

JAMES BARRY, residing at 115 Chattanooga street, San Francisco, aged fifty-four; compound fracture of left arm, long cut in same and several bruises.

L. CARROLL, a son of Contractor M. Carroll, aged twenty, residing at 563 Fifth street; contusion of left leg and slight concussion of the brain.

WILLIAM RUMFORD, aged forty-eight, residing at 1222 Eighteenth street; fracture of small bones in left foot.

F. A. BURTON, aged forty-six, residing at 1827 Myrtle street; injury to left ankle and sprain of back.

GEORGE SHERMAN, aged 63, residing at 1611 Delaware street, Berkeley; chest strained.

HARRY RUMFORD, another workman, and a brother of William Rumford, was also on the elevator, but stepped off just before it fell, and consequently was uninjured.

EXCITING INCIDENT.

An exciting incident in connection with the occurrence was the rescue of F. A. Burton by Councilman William Baccus, foreman on the job. Baccus was standing near the elevator when it fell and he noticed that Burton was just in the act of stepping off or to the floor. When he saw that in doing so Burton was apt to be crushed to death by the falling elevator, he grabbed at the man quick as a flash and retaining a hold on the man's clothing with a vice-like grip, he pulled the fellow off onto the landing just in time to escape the falling headpiece of the elevator.

THE ACCIDENT.

The accident occurred at about 7:45

o'clock. The men were going from the ground to their work on the third floor, where they were laying brick. The elevator had stopped at the third floor and Harry Rumford had stepped off, when suddenly something collapsed. No one seems to know whether it was the rope which broke, as a result of a flaw in its construction, or whether a part of the machinery gave way and released the cage. At any rate the machine shot downward like a flash, carrying its load of human freight with it, apparently to destruction. When Baccus and others who were attracted by the excitement had hurried to the lower floor they found the men piled in a heap at the bottom of the shaft among the broken pieces of the elevator, which was, of course, totally wrecked.

IN THE PATROL.

It was supposed at first that some of the men must have been killed and that none of them could have escaped serious or perhaps fatal injuries, but marvelous to behold, when the men arrived at the Receiving Hospital, where they were quickly taken by the police patrol, it was found that all of them were sufficiently whole of limb to be permitted to go home after their bruises had been dressed, with the exception of Barry, Dr. O. D. Hamlin attended the injured men and set Barry's broken arm, after which the latter was sent to the County Infirmary. Dr. Hamlin stated that he feared Barry's arm would have to be amputated.

CAUSE OF ACCIDENT.

M. Carroll, contractor on the job, hurried to the Receiving Hospital when he heard of the accident, as he was not present at the time. In discussing the matter he said: "I am told that the cause of the accident was the excessive load carried by the elevator."

"This is supposed to be used merely for transporting material, but the men used it on ascending or descending. We have often had as big a load in, and sometimes even a larger one so in the light of this occurrence it is a wonder we have not had an accident before. I am very glad that the affair did not result any more disastrously than it did."

OLD MINING SCENES ARE ENACTED AGAIN

Great Excitement at Camp in State of Nevada.

GOLDFIELD, Nev., Feb. 12.—The excitement at Manhattan continues unabated. It looks as if the old Comstock days were to be repeated. Cart loads of rich ore showing free gold are shown on the streets of Goldfield.

For six days the Briggs lease actually averaged an output of \$100 an hour.

ORE VEINS.

That the ore veins go deep has been proven beyond doubt. One hundred thousand dollars has been offered and refused for the Mayflower claim. The Annie Laurie of the Manhattan Mining Company made its first shipment of ore to Goldfield, sending twenty tons of heavy quartz that averaged \$500 a ton.

This shipment was run through the Gardner mill. Men purporting to be agents of Charles M. Schwab and John W. Gates are quietly obtaining properties.

Sales aggregating a total value of one million dollars were made in the month of January.

IMPROVEMENTS.

The trains to the new camp are loaded. C. F. Humphrey, a San Francisco attorney, paid out \$43,000 for an interest in leases. Alonzo Tripp states that a bond for \$750,000 has been signed to run the railroad into camp. A telegraph line is being built. An automobile road has started construction.

All records for actual ore production in the beginning of a camp's life have been wiped out by the phenomenal output of Manhattan.

Official figures from the railroad show that this Bonanza camp has sent out more ore in its month-old history than the rich camps of Tonopah and Goldfield sent out in six months after their birth.

MANY AMENDMENTS TO RAILROAD BILL

WASHINGTON, Feb. 12.—Many amendments to the Hepburn railroad bill have been proposed in the Senate Committee on Interstate Commerce and are being discussed and held aside to be voted upon, beginning next Friday. The discussion today was confined to the first three sections with a view to perfecting them.

FAMOUS PIANIST HAS DISAPPEARED

While Suffering With Melancholia, Woman Mysteriously Drops From View.

CHICAGO, Feb. 12.—Mrs. Fannie Bloomfield-Zeisler, the world-famous pianist, has disappeared from her home and the police have been asked by her husband to search for her. Mrs. Zeisler has for some time been suffering with melancholia, and the members of her family are apprehensive that some harm has befallen her. Mr. Zeisler told the police that Mrs. Zeisler had left the house at about 7 o'clock this morning, and that although he and his friends had used every effort to find her, they had been unable to do so, and desired the aid of the police.

MENTALLY DEPRESSED.

Mr. Zeisler told the police that his wife had for some time been suffering with spells of melancholia, and that just prior to her disappearance she had been mentally depressed for almost a month. Police Inspector Hunt at once ordered a number of officers to assist in the search for Mrs. Zeisler and a num-

GRADUATES AT ANNAPOLIS

ANNAPOLIS, Md., Feb. 12.—The career of the class of 1906 at the Naval Academy was brought to its close officially in the magnificent new armory this morning, when Secretary of the Navy Charles J. Bonaparte delivered to 101 members of the class their coveted diplomas in the presence of fully 3500 persons. In the large crowd were the families and friends of the graduates from all over the

country, and while not marked with the joyousness of similar occasions in the past, the scene was an impressive and beautiful one.

STAR MEMBER.

The speech of the secretary did not refer in any way to the present conditions at the academy, which, however, have materially affected the traditional gaiety of the occasion and cast a damper over the whole week's ceremonies. His address was short. At the conclusion of his remarks the secretary received the diploma of Midshipman Allan Chaney from Lieutenant Commander Magruder, who drew it from the pile of sheepskins on the table in front of him. The other "star" members who headed the class then received theirs in the order in which they stood in the final examination.

GRASP OF THE HAND.

The diplomas of other graduates were then drawn at random and as each youth stepped forward and received his reward and a hand clasp from the secretary there was a round of applause.

The handsome sword given each year by the class of 1876 to the midshipman holding the best record in the department of practical and theoretical ordnance and gunnery was presented to the man who earned it this year. He was Midshipman W. A. Glassford of Seattle, Wash., who received the prize from the hand of Secretary Bonaparte.

Among the graduates was Victor N. Metcalf, son of the Secretary of Commerce and Labor.

SIX BURNED IN A FIRE IN THE NORTH

Ten Seriously Injured and Taken to the Hospital.

PORTLAND, Or., Feb. 12.—At least six persons lost their lives in a fire which swept a busy little commercial district at the east end of the Morrison street steel bridge spanning the Willamette river at an early hour this morning. Ten or more persons were seriously injured and were removed to hospitals or to near by residences.

THE DEAD: NATHANIEL P. YOUNG, watchman for the East Side Transfer Company and for the C. R. Davis Fuel Company. HARRY TAYLOR, a boy aged 12 years. TWO UNKNOWN WOMEN.

The known injured are: Mrs. M. Bailey, face and hands seriously burned. Floyd Bailey, 17, face and hands seriously burned.

Wm. Nord Brown, dislocated hip. Walter Brown, son, severely burned and bruised.

Mrs. Nan Edmunds, fractured several ribs in jumping from second story; also burned about body.

Mrs. Male McVinn, lodging house keeper, jumped from second story window; back and hip badly sprained. R. H. Babcock, left hip crushed; jumped from second story window. Fred Krueger, Detroit, left wrist fractured and back sprained; jumped from second story window.

The district burned is partly built over a sink, and as the planking along the sidewalks burned the position of the firemen became precarious. In endeavoring to save some of the lodgers from the rooming house over the Mount Hood saloon, two firemen were overcome by smoke and fire and saved from death by their comrades.

A number of persons are reported missing. The fire started in the Mount Hood saloon and consumed that place and the lodging house above it in which most of those killed and injured were sleeping. The loss is estimated at \$50,000. Twenty-two horses, property of the East Side Transfer Company, were destroyed in the fire. Watchman Young met death in a heroic effort to save the imperiled horses. He had made several trips into the transfer company's stable endeavoring to save the horses when he was cut off by the flames. He made his way to one of the upper windows, which he broke. Looking out, he waved his hands to the crowd below and cried: "Good bye, boys. I can't get out this time," and he fell back into the flames.

LITTLE WILLIE IS WEARING GIRL'S DRESS

Father and Mother's Original Plan to Try and Make a Very Bad Boy Good.

Willie Armstrong is an interesting little romancer of nine, son of Edward M. Armstrong, a carriage painter residing at 1831 Grove street. For his latest escapade (they have been numerous) he is spending today in girl's garments and barefooted so that he cannot pursue his ambition to see as much of the world as possible during his first decade.

TELLS A SAD STORY.

Late Saturday night Willie turned up at the door of John G. Anderson, a carpenter, at 1911 Berkeley way, Berkeley, with a plaintive story about cruel parents. He had gone to a skating rink early in the evening, he said, and on returning found the door locked and his parents wouldn't get up to open it. Then he had wandered in the cold all the way to Berkeley seeking a place to sleep.

GIVEN TO POLICE.

The Andersons turned the boy over to the Berkeley police, to whom he told the same story. By telephone the Oakland police were informed and they sent word to the Armstrongs. The latter say they were given to understand that Willie would be kept in Berkeley until morning. But the Berkeley police put him on the last car this way and he was handed over to the Oakland night force about 3 a. m. Sergeant Bock took the boy home and had no trouble getting the family to let him in.

FALSE STORY.

The boy's parents told a TRIBUNE reporter this morning that the story of his being locked out was entirely false. Mrs. Armstrong is an invalid and has not left her bed for seven months. "Willie is uncontrollable," she told the reporter. "He runs away every chance he gets and this was one of them. Saturday morning I sent him to the laundry for his father's collars and that was the last we saw of him that day. He sent another little boy home with the collars. I had to send for his father and he spent all Saturday hunting for Willie. We did not lock him out and he never came back trying to get in. He did not go near the skating rink. When he came home he said he had been in Berkeley all day and had been looking for his brother Eddie, who lives there."

HE RUNS AWAY.

"I am not able to look after Willie myself and his father cannot do it while at work. When we send him to school he runs away. I am afraid we will have to put him in some institution where he can be looked after as he should be."

SEVEN CHILDREN.

"I have seven children," said Mr. Armstrong, "and this little rascal has given me more trouble than all the rest of them put together. I have never whipped him and am beginning to think I made a mistake in not doing it. He is well treated at home, yet delights in going about begging at doors and saying his parents are drunkards who won't give him enough to eat. When he gets out at night and the police get after him he tells them his parents have locked him out. The police around here know this is not true and chase him home, but when he gets further away his story is apt to be believed."

IN GIRL'S CLOTHES.

"This morning I put him in girl's clothes so he couldn't run away today and said to him, 'Now Willie, if you will be a good boy today I will give you two bits tonight and let you go to the skating rink.' He promised, but I don't know whether it will do any good. He is bright, sharp as a steel trap," here Mr. Armstrong's tones showed something like fatherly pride, "and has a way of getting what he wants. Yes, I think we will have to put him in an institution. His mother cannot leave her bed and I cannot be always leaving my work to be hunting him up. If something is not done there is no telling what will happen to him. Only a month ago he got into trouble with the police by taking a wheel that did not belong to him."

SHACKLES ON THE BOY.

The father said he had gone so far as to put shackles on the boy to keep him home, but thought the girl's clothes method less harsh and more effective. Then he called Willie in to tell his own story. The boy came running in in a frock that reached well below his knees. His feet were bare, an additional remedy for his hobnob habits. He did not look abused or starved and his eyes were very mischievous looking. He did not look abashed by his female garb.

"Where were you Saturday?" the interviewer asked.

"In Berkeley," was the response.

"All day?"

A vigorous nod.

"Why did you go there?"

"To see my brother. Didn't find him though. Forgot where he lived."

"How did you get there?"

"On the car. Earned a nickel chopping wood for a man."

"Did you tell the police there your people had locked you out?"

"Yes, I did."

"Had you been locked out?"

"No."

"Why did you say so?"

"Oh, I just wanted to have a little fun with them."

Then the father gave the boy a lecture on the wickedness of story telling, to which he listened contritely, evidently wondering what effect his sire's knowledge of his Berkeley narrative was going to have on the two bit and skating rink pledge.

"I guess Willie will be good now," said the visitor, as he turned the outer door knob.

"He'll have to be good," said the father, grimly, and the view of two bare heels kicking up a blue skirt, disappearing through the opposite door, indicated that Willie was glad the interview was over.

LAW TO REGULATE DEADLY DRUG EVIL

WASHINGTON, Feb. 12.—During the consideration in the House of a bill to regulate the sale of poison in the District of Columbia, the statement was made that the drug habit, especially the use of cocaine, had grown at an alarming rate during the past five years.

Chairman Babcock said he had been called at all times of day and night by mothers and persons interested to plead for a law which would make it impossible to obtain this drug.

The evil had grown, he said, to be decidedly greater than the liquor habit. The bill was passed.

NEW JAIL FOR THE COUNTY

Alameda County is to have a new jail—one which will be modern in every respect. This was decided upon when the Supervisors, at this morning's meeting, adopted the following resolution, which was introduced by Supervisor Kelley:

"Whereas, The present jail facilities of the County of Alameda, State of California, are inadequate, unsanitary, unwholesome and unsuited for jail purposes; and

"Whereas, The State Board of Charities and Corrections have recommended that a new jail building be erected by the County of Alameda to replace the one in use; now, therefore, be it

"Resolved, by the Board of Supervisors of the County of Alameda, State of California, in regular session assembled, that a new jail building of

modern construction, equipment, and sanitary condition, and in accordance with the arrangement and suggestions submitted by the said State Board of Charities and Corrections, be erected to replace the inadequate structure now used for jail purposes and that W. J. Miller be employed as an architect to prepare plans and specifications subject to the approval of the said State Board of Charities and Corrections and superintend the construction of the said new jail building to be erected as aforesaid, and that the said W. J. Miller be paid 5 per cent commission of the total cost of the building and its appurtenances for his services as such architect."

The resolution was seconded by Supervisor Rowe and was unanimously adopted.

The jail is to be built inside of three years.

CONFERENCE TO BREAK UP

ROME, Feb. 12.—Most pessimistic official news has been received here from Algiers, causing considerable apprehension.

It is said that France is determined to consider a Franco-Spanish organization of the Moroccan police as her ultimate concession to which Germany refuses to agree, thus breaking up the conference.

Contractor Makes Complaint to the District Attorney.

Editor TRIBUNE: I desire to make a statement about a contract concerning the cement basement for the Alleandale school. This work is being done by Mr. Dunlevy and Mr. Lynch. Mr. Dunlevy being a trustee of the school district.

About two months ago I saw Mr. Bridge, the trustee, and asked if they were going to lay floor in the Alleandale school. He said that they were, and I told him I would like to have a bid on the work. He said that I should have an opportunity. The thing drifted along for about a month and I heard nothing, and finally went and saw Mr. Fletcher, clerk of the board, and he said that they were going to lay the floor right away and that I would be asked for a bid.

It drifted along for two weeks and I saw Mr. Bridge at the Lowell schoolhouse, that being a week ago last Friday, and again asked him about the floor, and he asked me why I didn't get my bid in. I told him I could not give him a bid because I didn't know what they were going to do or what amount they were going to do. I asked if they had specifications and he said there were none. I told him I would write up the specifications. Next evening I was going down to Mr. Fletcher's house and see him about it, but before I got started he came to my house and asked me if I did not know the work required and asked him for specifications.

He said he had none written up but he gave me orally the specifications that were to be used on the floor, and that the floor was to be 4 inches thick, Alsen's German cement to be used throughout, the mixture to be 1 to 8 for the concrete, and 1/2-inch top to be mixed two parts of gravel to one part of cement, and that no other cement was to be allowed to be used on the building, and also stated he wanted the specifications by Sunday night, as the school board met the next Monday. I went to the janitor of the school house Sunday morning, got a key and measured up the floor and wrote out my bid. At the same time I found out that there was a quantity of Golden Gate California cement stored in the basement of the school house.

The other bidder was a man named Severa. His bid was 12 cents per foot, to use Alsen's cement.

The next bid was mine, which was \$660 to lay the entire floor.

His bid was a man named Predado. His bid was 12 cents per foot and was written out on two sheets of foolscap paper and was very elaborate in what he would do for 12 cents. According to my figuring, was a little below 12 cents, but they figured that it was above.

Mr. Dunlevy moved that these bids be taken under advisement, and the next morning I saw Mr. Bridge and asked him who got the contract, and he said it was Severa. He said he did not know anything about it, and when I told him it was Severa he said, "I hope to drop dead if I knew there was any cement there." I told him that I had seen the cement in the Alleandale schoolhouse immediately to see if it was there. I phoned to the Remillard Brick Company and asked them if they had delivered any cement to the Alleandale school. They said they didn't know, but they said he had delivered a load of cement at the corner of School street and Redwood road. I asked them who ordered the cement and they said Mr. Dunlevy. It was Golden Gate cement that was in the schoolhouse, and it was Golden Gate cement that was delivered a week before. I have placed this matter in the hands of the District Attorney, who is now considering it. I don't make this statement as a disgruntled contractor, but as a citizen of Oakland and a taxpayer. Yours truly,

W. N. WHITMORE,

ANNUAL CONVENTION
OF LAND OWNERS

BERLIN, Feb. 12.—The annual convention of the Agrarian Association, including in its membership 270,000 proprietors of estates, large and small, and forming one of the most powerful political bodies in the empire, opened here today at the Hippodrome. About 8,000 owners of estates were present. Dr. von Floeckner, a large landowner of Hanover, and until recently secretary of legislation at the City of Berlin, made a carefully worded statement upon the trade relations with the United States. He said: "These relations have now become acute, because up to the present time we have not been able to conclude a new commercial agreement with the United States. You all know that we take twice as much from America as we send there. But, unfortunately, the principle of closed home market has the upshot in the City of Berlin, in spite of the intention of the Senate. We might argue that with the exception of cotton, maize and land we could get anything else we buy from the United States from our own countries. But if we must be in our negotiations, it would be fatal if we did not do all we could to make an agreement possible.

"The English and French would be the chief winners were we to engage in a chief wars with the United States. Such a war, therefore, could only have one result on our side, and that would be to weaken us. But that must never be the aim of our policy. Upon the other hand, we have every reason in the present to strengthen our ties with America, which is the only world power that can remain passive with Great Britain and at the same time form a closer friendship with us."

WILL OF THE LATE FAIRBANKS

The will of the late Daniel Fairbanks of Berkeley was filed for probate today. He leaves an estate valued at about \$50,000 to his widow and son Harold in equal shares, with the exception of two \$100 bequests to his brother and sister and \$1000 to his granddaughter, Helen K. Fairbanks, who resides in Berkeley. The bulk of the estate consists of land at Haute and Ellsworth streets, in Berkeley, valued at \$4000; two lots in the Hopkins Terrace, worth \$1000; the home of Daniel and Albert Fairbanks, at 1400, and other property in San Diego. He states that he does not wish to have the funeral held in Berkeley, but that the real estate must be sold it is to be held in good securities.

VALUABLE PAPER
HELD BY WOMEN

Mrs. Kate Shaughnessy, who is here from St. Louis visiting Mrs. A. Graham of 1447 Webster street, has in her possession a copy of the New York Herald of April 15, 1865, containing an account of the assassination and death of President Lincoln, which is interesting, not

only on account of its extreme age, but, too, because of its association, this being the Great Commoner's birthday anniversary.

Which, it will be seen, is nearly forty years old, is bordered in black and contains in separate arrangements stories of the tragedy and its fatal result. War news and other matter concerning those strenuous times serve to fill the four pages contained in the issue.

The copy is said to be worth not a little and Mrs. Shaughnessy values it highly.

SAYS HE TOOK
WOMAN'S MONEY

Frank Hillman, a piano collector, is under arrest at the city prison on a charge of having obtained \$200 from Miss Lucile Streeter under false pretenses. Hillman is said to have been squandered at the races.

Hillman is said to have come of a good family in Los Angeles. Every thing possible is being done to have the charge withdrawn.

Yesterday he wrote Miss Streeter a letter stating that he was ready to tell her all. Owing to the fact that Captain of Police Petersen and Detective Quigley were present at the interview the prisoner did not make a confession.

Hillman states that he will be able to make everything good and does not believe that he will be prosecuted.

There was a strange man who visited Hillman yesterday. He stated that he was a friend of both parties. Further than that he was not willing to make a statement. Hillman said that he did not know the stranger.

GRAND LARCENY
IS CHARGE MADE

Edward Dennison and Charles Stetson, under arrest at the city prison on a charge of grand larceny preferred by T. H. Covey of the Arlington Hotel. The victim alleged that he was robbed of \$30 in money and a diamond stick pin.

Both of the arrested men have records. Dennison served five months at Livermore for petty larceny and Stetson admits having served time at Alcatraz Island on a charge of fraudulent enlistment by the United States Army. Stetson was discharged from the Seventy-seventh Coast Artillery and that he re-enlisted in the Thirtieth Infantry under an assumed name.

Covey states he is a collector for the Western Meat Company.

The progressive business men of Washington street in Oakland are sure to be full of ginger and mean to have their city force ahead and occupy a place second only to the city of San Francisco. They desire to have Washington street opened to San Pablo avenue, and say that they are perfectly willing to stand the expense. The City Hall would have to be moved—er, in fact should be torn down—and considerable repaving, curbing and sidewalking would have to be done. The expense would be heavy, yet they freely offer to stand it and wish the city be the gainer thereby.—Was

UNION LEAGUE CLUB TO GIVE A BANQUET TO STORY OF HER LOVE

Miss May Monahan Tells of Her Unusual Experience.

Miss May Monahan, the dainty little hairdresser who exposed the duplicity of Charles S. Thompson, the missing assistant principal of the Livermore High School, on the eve of his marriage to Miss Alma V. Hland, of Alameda, is receiving the congratulations of the latter's family for her prompt action in preventing an alliance which would have eventually proved an unlucky and undesirable entanglement.

Further investigations reveal the fact that during the two years that Thompson was engaged to Miss Monahan he met and wooed Miss Hand, and wrote equally sentimental love letters to both young women. One of the most despicable features of the affair is the fact that Thompson had accepted various sums of money, to the amount of \$400, to assist in the completion of his college course at Stanford University.

On the evening of December 31 Thompson, in an interview with Miss Monahan promised that he would pay back the money he owed her. After this interview, Thompson wrote Miss Monahan several letters, but did not call on her, and it was not until a friend of Miss Monahan's sent her an invitation announcing the proposed wedding of Thompson, that she realized she had been so cruelly duped. It was then that the latter called on Miss Hand and told her story, and later Thompson was called to account.

Miss Monahan left the city two weeks ago on a visit to Los Angeles, believing that in her absence, the Thompson-Hand nuptials would be solemnized, but was surprised on learning through a Los Angeles newspaper, that Thompson had deserted his bride.

She then Miss Monahan had exposed Thompson to Miss Hand's family, she received a letter from him in which he accused her of blackmail, and also asserted that he would never repay her for the money she had advanced him. In this same letter he also intimated that he would make good his escape.

GIRL'S STORY.

When it was learned that Miss Monahan had returned to San Francisco, a brother-in-law of Miss Hand called on the young lady at her apartments at 1123 Leavenworth street. To him she told the following straight-forward story:

"I have not seen him since December 25. I was acquainted with him for two years and we were engaged for a year and a half. He wanted to marry me right away, but I would not consent because I wanted to finish my college course. I loaned him several hundred dollars at the time, believing I was soon

"I saw him several times during the last three months. I did not know anything about the other girl in the case," she said. In fact, I suspected nothing till a friend of mine wrote me some time ago telling me about this other woman."

Here Miss Monahan showed the letter from her friend, and at the same time produced several other missives from Thompson, in which he promised to pay her just as soon as he could. She also produced missives to prove his engagement to her despite the fact that his mother made strenuous denials to the con-

said Miss Monahan. "I think from what I can gather that there must be a third woman in the case. I received my last letter from him the day he disappeared. He never would pay the money he owed me and wound up by saying that I was trying to blackmail him.

"In this letter he also said that he was going away but that no one would ever see him alive as I already knew. In another letter to me he states that if I insist on trying to collect the money he owes me he would settle it all with a little glass he had in his pocket. I did not know that but if I were to find my gloves on him now, so I consider the incident closed."

Some Democratic Day Dreams.

The Los Angeles Herald is having one of its periodical neurotic spells. It dreams of nights and sees visions by day. It is also moved to utter prophecies. It is now laboring under the poignant delusion that the Democrats will elect the next Governor of California—have a walkover, in fact, at the next election—and because it is so cocksure of this it urges in large type the Democrats to get together and stay together. It sees no inconsistency in urging the Democrats to get together and unite as the only possible chance of winning a victory and predicting that victory is certain, although no conventions have been held, no platforms framed and no nominations made.

It is all very absurd, of course, so absurd that one wonders if the Herald writer believes in his own rhodomontade. But in one respect its predictions call for more than passing attention. The Sacramento Union has been praising Governor Pardee as a pretext for asserting that his renomination is impossible. The wish is father to the thought. Assuming that the Union is really the Governor's friend, the Los Angeles paper proceeds by process of elimination to prove, by its own peculiar logic, that the Republicans cannot elect anybody this year—can't nominate a candidate for Governor in fact. It says:

"Governor Pardee, as the Union claims, has made a good Governor, from a Republican standpoint. No scandal has attached to his administration and he has 'done the best he knew how.' But his hopes of renomination are likely to be never realized. He is not strong with his own party. The machine is against him. Ruef and Schmitz are against him. All the Republican political hellbroth of San Francisco is bubbling up to overwhelm him and he will very likely go down to defeat. It will be Schmitz or Hayes, and in either event that means Abe Ruef."

So much for what the Los Angeles Herald has to say. Suffice it to say, California is a Republican State by from 20,000 to 40,000, and the Republican party is fairly united. Both the National and State administrations are popular, and have deservedly won public confidence. Therefore the Republicans can elect any respectable man they choose for Governor. That they will nominate none other can be taken for granted. In other words, California will elect a full Republican State ticket this year, as she has done, with a single exception, in every election since 1886.

Ten years ago the monetary circulation in the United States was \$21.40 per capita. Then the Populists and silver enthusiasts were insisting that unless the mints were reopened to the free coinage of silver the circulating medium would continue to contract until universal bankruptcy would ensue and the sheriff would sell everything in the country off at auction to satisfy the insatiable demands of the Money Power. On February 1, 1906, the circulation reached \$31.88 per capita, the highest point in our national history. France alone has a larger per capita circulation, and the financial system in France requires a greater volume of circulating medium than is required under the financial methods employed in the United States. Although silver was not remonetized as a result of the election of 1896, and the population has enormously increased, the per capita circulation has increased fifty per cent, and is still rapidly increasing, the increase being mainly in metallic money.

The blow has fallen. Senator La Follette has at last given the railroads that long expected, long dreaded jolt. He has introduced an anti pass bill. Now let the wicked writhe.

The United States should not imitate the criminal folly of Great Britain by permitting the importation of Chinese coolies under contract into the Philippines. The contract labor system is only a species of slavery at best, and the employment of contract coolies in South Africa has developed into a very vicious form of slavery. Vigorous protests are being made by the Filipinos against the introduction of this system in the islands. There ought to be something sacred against the calloused unclean grasping of profit. The fact that some wealthy Americans have invested in sugar, tobacco and hemp lands in the Philippines furnishes no reason why we should commit a crime against the inhabitants of the islands and authorize the establishment of a slave system abhorrent alike to civilization and to our national institutions. In dealing with South Africa Great Britain has gone back a hundred years and reverted to eighteenth century methods. This country has no legitimate use for the British colonial system and still less for a sordid policy that would establish the coolie slave system in the Philippines.

Some natives in South Africa have been so impudent and so absurdly ignorant of the superior rights of Europeans—particularly the British—that they have raised the cry of "Africa for the Africans." The natural and usual result has ensued. Troops of cavalry, batteries of artillery and battalions of infantry have been ordered out to convince the misguided natives of the profound truth which the white race has emphasized for hundreds of years—with cannon, rum and bibles—that the black man has no rights the white man is bound to respect, and that only that part of Africa which Europeans cannot turn to their profit is for the Africans. At last accounts the "Africa for the Africans" crowd were hiding in the bush and the missionaries of the British army were searching for them in the hope of showing them their error.

The Chinese Situation Alarming.

Late news from China confirms the view that the so-called boycott on American goods is in reality a manifestation of the anti-foreign agitation now sweeping over the empire. Apparently this agitation is about to culminate in another Boxer outbreak on a far more extended scale than the one the allies suppressed a few years ago. Wong Fong, formerly secretary of the Chinese Six Companies, has sent out a warning for all missionaries and other Americans in China to flee the country forthwith. This may be intended in good faith or it may be a device to induce foreigners to abandon China at once without waiting to be driven out or exterminated as Wong Fong predicts.

In any event the situation is quite alarming. Popular demonstrations in many parts of the empire indicate the imminence of an uprising along race and religious lines against foreigners and foreign interference with the concerns of China. All Mongolia is a-mutter with "Asia for the Asiatics," and the populace is openly resentful at the presence among them of foreigners who carry with them an authority and immunity the natives are forced to respect.

Our own government appears to be apprehensive of trouble in China, and is strengthening the military force in the Philippines in anticipation of an early need for a display of force. In the meantime our diplomatic representatives are maintaining a conciliatory but firm attitude. It is evident the administration will afford ample protection for Americans in China and will sternly punish any one who is visited on our citizens. And the Chinese woefully mistake the American people if they think trade boycotts and threatening demonstrations are going to intimidate Congress into legislating to accommodate Chinese interests.

HAVE ACHIEVED NATIONAL FAME.

The trustees of the Oakland Free Library have achieved national fame by taking the initiative in barring from the library files the comic supplements of the Sunday papers. Some years ago this same board excluded from the shelves copies of the famous romances of Maurice Hewlett, one of the best known of contemporary writers. So it is evident that Oakland has a claim to distinction in its library board. However, there is some moral ground for the action of the board in the case of the comic supplements. The average American youngster needs no special incentive to get into mischief, and in many homes the pictures in the comic sections are regarded as altogether too much of a bait to youthful ambition in this direction. For grown-ups the pictures can do no harm, but the testimony of hundreds of parents is available to show that certain of the funny pictures have worked serious harm to the discipline and ideas of the younger members of the households.—Santa Rosa Republican.

FILIPINOS AGAINST CHINESE COOLIES.

The bringing of Chinese coolies, or other laborers under contract, will only aggravate the whole question, even if it may give relief in specific cases. The wages of the Filipino laborer will never rise above the rate paid to the poorest, starving Chinese coolie in the most congested part of China, and a prosperous laborer here will be forced to the lowest stratum, or more cheap coolies will be imported. It may even be granted that this would be profitable to capitalists, but this is precisely the point of greatest danger. We fear that the coolies and laborers will be treated as machines instead of human beings. . . . Conditions in the western part of America were similar to those that obtain here at present; the natural resources, especially the gold, the rapid development in other lines also, made labor scarce and everybody was glad to welcome the industrious, meek Chinese coolie, who, besides being very cheap, did not complain, like the American laborers, of hardship and injustices. The fact that the most rigid exclusion prevails now everywhere in the United States is the strongest argument we could use to prevent this impending disaster for us. We ought to profit by the experience of others, instead of having the experience ourselves.—Manilla Renacimiento, December 16.

A FAMOUS PHRASE.

In a recent address before the Illinois historical society Charles E. Carr considered Lincoln's memorable two-minute address at Gettysburg, and pointed out that the familiar words contained in the address—"a government of the people, by the people and for the people"—were not original with Lincoln. It is recalled that there was considerable comment at the time of his using them, which went so far that it was insinuated that he was guilty of willful plagiarism. The matter was thoroughly investigated by Lamon, Nicolay and others, and it was found that the phrase had been so often used as to become common property. It appears substantially as Lincoln used it in Webster's reply to Hayne. It was used by Theodore Parker in an anti-slavery convention at Boston in 1850, and by Joel Parker in the Massachusetts constitutional convention in 1853. The first appearance of this phrase, so far as it has been possible to ascertain, was in the preface to the old Wickliffe Bible, which declares that "this Bible is for the government of the people, by the people and for the people."—Boston Herald.

A Prominent Cincinnati Woman Tells How Lydia E. Pinkham's Vegetable Compound Completely Cured Her.

The great good Lydia E. Pinkham's Vegetable Compound is doing among the women of America is attracting the attention of many of our leading scientists, and thinking people generally.

Mrs. Sara Wilson

The following letter is only one of many thousands which are on file in the Pinkham office, and go to prove beyond question that Lydia E. Pinkham's Vegetable Compound must be a remedy of great merit, otherwise it could not produce such marvelous results among sick and ailing women.

Dear Mrs. Pinkham—
"About nine months ago I was a great sufferer with female trouble, which caused me severe pain, extreme nervousness and frequent headaches, from which the doctor failed to relieve me. I tried Lydia E. Pinkham's Vegetable Compound, and within a short time felt better, and after taking five bottles of it I was entirely cured. I therefore heartily recommend your Compound as a splendid female tonic. It makes the monthly periods regular, without pain, and what a blessing it is to find such a remedy after so many doctors fail to help you. I am pleased to recommend it to all suffering women."—Mrs. Sara Wilson, 31 East 34 Street, Cincinnati, Ohio.

If you have suppressed or painful periods, weakness of the stomach, indigestion, bloating, pelvic catarrh, nervous prostration, dizziness, faintness, "don't-care" and "want-to-be-left-alone" feeling, excitability, backache or the blues, these are sure indications of female weakness, or some derangement of the organs. In such cases there is one tried and true remedy—Lydia E. Pinkham's Vegetable Compound.

CHILDREN'S CHILDREN.

O mothers, lonely in your house today,
From whence the voice of glad young life has flown,
Where joy once reigned sits silence cold and gray,
The children now have dear homes of their own.

That this might come to us one day we knew,
For always ere the frost had kissed the flowers,
The full-fledged birdlings from the homestead flew;
But ah, the autumn seemed so far from ours!

And not for us the hope the fond birds share,
That brings them hastening over hill and plain
To build and rear anew with tend'ring care;
For never may we build and rear again.

But would we keep our dear ones, though we might
Nay, mother-hearts, not self-love do we know;
When once they prove their strong young wings in flight,
We hide our tears, and, smiling, bid them go.

Some day, perhaps, when little fingers twine
In clinging trustfulness about our own,
And eyes so strangely like to yours and mine
Look up with loving glances we have known.

With joy we'll clasp the precious thing and say,
This is reward for all our loss and pain;
This is God's plan, that haply thus we may,
Through children's children, build and rear again.

—Helen Marquis.

INTERESTING BITS.

It is well known that in certain diseases there are very marked variations in the growth of the finger nails, both in length and thickness. Recently a Japanese scientist has been making a study of the variations of the thickness of the hair. He finds that the hair is influenced by the health much as the nails are and that anything which lowers the general health of the subject tends to decrease the thickness of the hair. Thus the length of the averted part of the thinner portion of the hair will give an idea of the duration of a malady, and even of slight affections. The variations are more strongly marked in the case of coarse-haired races than of others. Provided the hair had never been cut, the subject would have his pathologic history written, so to speak, in capillary terms.

In the course of the operations for restoring the foundations to the cathedral at Winchester, England, the excavators discovered some interesting relics of the Roman occupation. Thirteen vases and lamps were unearthed. One piece was an excellent specimen of pottery, intact and in perfect preservation. The lamps are of the type known as "the lamp of learning" and resemble in shape a gray boat with a spout at one end, from which the wick protrudes, and a handle at the other. The vessels are made of iron and though discolored with age are unbroken and in an excellent state of preservation.

Very curious is the method of fishing followed by the Chinese in the Straits of Malacca. The fisherman lets down from the side of the boat a screen of white canvas stretched on wood. The shoal of fish mistake this for some floating obstruction and try to leap over it, with the result that the fish jump into the boat and are thus captured. This method is employed by Malays in their waters.

ALAMEDA MINISTER'S ADVICE TO GIRLS

SOCIAL EVENTS OF INTEREST TO SMART SET
Miss Chickering to Be a Bride This Week--Date of the Huntington-Metcalf Wedding is Set.

The wedding of Miss Emily Chickering, daughter of Mr. and Mrs. William H. Chickering, and John Trumble Overbury, of New York, will take place next Thursday.

The ceremony is set for 3:30 o'clock, and is to take place at the First Congregational Church. Several hundred cards have been sent out for the ceremony, and the auditorium of the church will be crowded. The color scheme will be carried out in pink and white, the six bridesmaids wearing gowns of white and the maid of honor, Miss Martha Chickering, will be gowned in soft pink.

The sextet of bridesmaids includes Miss Helen Knowlton, Miss Theo Parr, Miss Elsie Everson, Miss Mollie Mathes, Miss Lita Schlesinger and Miss Mabel Hogg. Harry Chickering is to support the groom and the ushers are to be Lester L. Oddie, Nelson M. Poe, John T. Poe Jr., Roger Chickering, Carl Wolff and Rudolph Schilling.

An informal reception will follow the ceremony, taking place at the Chickering home on Sixteenth street, and the guests including only relatives and closest friends. An extended honeymoon is to follow the wedding, and then the young people are to make their home in Bullfrog, where Mr. Overbury has extensive mining interests.

MRS. EGBERT STONE, WHO WILL GIVE A DINNER THIS WEEK.

CHARITY BALL.

All preparations for the Charity ball in San Francisco on Thursday evening of this week are about completed, numbers of tickets having been sold already, and the success of the event is an assured thing. The ball will take place in the ballroom of the Palace Hotel, which will be beautifully decorated for the occasion. The bridge tournament, which promises to be quite as popular with society as the dance, will take place in the maple and marble rooms, under the direction of a most efficient committee, of which Mrs. Warren D. Clark is the head. Handsome prizes have been donated, and there will be one for each table. Tables will be engaged at any time from Mrs. Clark, free of charge, and among those who have already done so are Mrs. George A. Newhall, Mrs. Carter Pomroy, Mrs. Augustus Taylor, Mrs. Wakefield Baker, Mrs. William P. Morgan and Mrs. H. M. A. Miller. The price of the entrance ticket is \$5, which includes the privilege of playing bridge and of supper, which latter is to be one of the features of the occasion. A committee has had charge of the matter of catering for the large number of guests who will be present, and the results are in every way satisfactory. Tickets may be procured on the presentation of invitations at Sherman, Clay & Co's every morning from 10:30 to 12:30 o'clock, and on Thursday, the day of the ball, members of the committee will be on hand to sell tickets all day. The work which will be benefited by this ball is the Telegraph Hill Neighborhood Association, an organization which has achieved much in that quarter of the city, and especially among the sick. The ball promises to be one of the most fashionable events of the winter, and, although a large number of invitations has been sent out, it will be decidedly an exclusive affair, and none but the socially elect will have the opportunity to contribute to the cause. Several dinners have been planned to precede the ball, and parties are being formed to go and play bridge together.

PLAYED CARDS.

Mr. and Mrs. Frank Wedgwood entertained the Evening Whist Club last Tuesday evening at their home in Golden Gate. Mrs. A. Deitz and E. Hoffman were the highest scorers. Refreshments were served and a very pleasant evening was enjoyed. Those present were: Mrs. A. Deitz, Mr. and Mrs. Bull, Mr. and Mrs. J. E. Whitehead, Mr. and Mrs. W. A. Schrock, Mr. and Mrs. E. Hoffman, Mr. and Mrs. F. Smith, Mr. and Mrs. R. Boyer, Mr. and Mrs. F. Wedgwood, Miss Nellie Deitz, William Hammar, William Wedgwood.

LAMBS DANCE.

The dance of the Lambs Theta Pi Sorority at Maple Hall Friday evening was a success. The guests of the younger set had a good time.

The chaperons who attended were Mrs. J. H. Harold, Mrs. Guy C. Earl, Mrs. Frank Brigham, Mrs. T. C. Coogan, Mrs. J. E. McElrath, Mrs. J. L. Plaw, Mrs. A. S. Cassin, Mrs. W. H. Chickering and Mrs. W. G. Palmanteer.

BIRTHDAY PARTY.

Mrs. H. A. Mahler recently entertained friends at a birthday party. Whist was played and the honors went to Mrs. Hiram Peidenhoff, Mrs. Norman Miller, Miss Alice Irvine and Mrs. E. M. A. Campbell. Among those present were: Mrs. F.

WILL SOON RETURN.

Mrs. Ida Brinkerhoff Trafton, who has been spending the winter in New York and Washington, will return to her home in Oakland May 1.

AT THE HOME CLUB.

One of the most interesting programs of the year is to be given at the Home Club, East Oakland, on Thursday afternoon, when the regular monthly luncheon takes place. A charming little playlet, arranged by Miss Ethel Moore from Mrs. Webster's book, "When Patty Went to College," will prove a decided attraction. Miss Francis Jolliffe is to take the leading character, Patty; and the others are: Priscilla, Mrs. Edward E. Brownell; George, Miss Myra Cook; freshman, Miss Mary de Fremery; maid, Miss Ray Wellman. Several excellent musical numbers are to be given under the direction of Miss Pauline Collins, as follows:

Miss Ruth Waterman, (a) "Four Leaf Clover" (Willoughby), (b) "By Name" (Mary Knight Wood); "Sunset" (Dudley Buck), Miss Waterman, accompanist. Miss Madeline Todd, with Miss Beth Howard as accompanist, will also contribute several violin selections.

DINNERS PLANNED.

A number of informal dinner parties have been planned for Wednesday evening, preliminary to the meeting of the skating club. One of these jolly affairs is to be given by Mr. and Mrs. Egbert Stone, who are to entertain a party of fourteen at their Jackson street home. The guests are mostly from the same neighborhood, and at 10 o'clock will head their way to the rink, where an hour or two of skating will conclude the evening's festivities.

BIRTHDAY PARTY.

The little friends of Master George Cowell were entertained Saturday afternoon at his home in honor of his birthday. Games, music and other pleasures were enjoyed by the children, after which refreshments were served. Master Cowell received many presents. Those present were: The Misses Clara Jacobs, Hilda Scherer, Blanche Arnell, Marion Davis, Ethel Hostawser, Hazel Johnson, Marion Chouin, Gertrude Jacobs, Bertha and Lily Johnson, George Cowell, Carl Jacobs, Edwin Johnson, Walter Jacobs, Albert Jacobs, Arthur Cowell, Leslie Hoffschneider and Archie Hoffschneider.

GIRL PLAYS A BANJO WITH FEET

OWINGSVILLE, Ky., Feb. 12.—Fifteen-year-old Mary Ada Hendricks, of Ansel, Wayne County, Ky., is without doubt one of the most wonderful girls in the country, barring Helen Keller. Though born without arms, and still worrying along without them, Miss Hendricks can perform many acts which girls with the usual number of arms find difficult.

Miss Hendricks can play the piano, accordion, mouth organ, banjo and several other musical instruments in a very creditable manner. For all these instruments, except the mouth organ, she uses her feet. To play the piano Miss Hendricks takes a stool and seats herself above the keyboard, from where she manipulates the keys in an expert manner. To play the stringed instruments she uses her heel and toes.

IMPRISONS HIS SON THREE MONTHS

CHESTER, Pa., Feb. 12.—His son being so incorrigible that A. Harrison, of Prospect Park, was undetermined for a time whether to send him to the House of Correction or imprison him himself. Mr. Harrison came to the latter conclusion, and sentenced the boy, who is sixteen years old, to solitary confinement in his home for a period of three months.

The boy is locked in a second-story room and is allowed to leave the room only at meal times. Reading matter is provided, but cigarettes, one of the evils to which he has been a slave, are eliminated.

ALICE INVITES TWINS TO WEDDING

HOUSTON, Tex., Feb. 12.—Lila May and Ida Kay Rogers, the pretty little twins who have been invited by Miss Alice Roosevelt to attend her wedding, are the envy of all Houston. The children are eleven years old, and live with their parents, Mr. and Mrs. R. S. Rogers, at 1818 Fulton street.

Miss Roosevelt saw the twins at Oklahoma City when she was there with her father. The President kissed them and Miss Alice jotted down their names in her notebook.

During the Spanish-American war H. C. Sheffield, a brother of Mrs. Rogers, the mother of the twins, was a member of Roosevelt's Rough Riders, and by his gallantry won the admiration of his commander and became a warm personal friend of the President.

WOMAN, AGED 102, JOINS CHURCH

NEW YORK, Feb. 12.—Mrs. Drusilla Morrell, 102 years old, of 122 Adelphi street, Brooklyn, has just become a member of the Simpson Methodist Episcopal Church, at Clermont and Willoughby avenues, Brooklyn.

"I just took a notion and I joined the church—joined because I believe in the church," said aged Mrs. Morrell to a World reporter last evening. "I don't know exactly how it happened that I never joined a church before. I always took a great interest in Henry Ward Beecher's sermons. I have studied the Bible all my life."

"I'll tell you how I think it happened. The Rev. William J. Thompson, the pastor of the church, is a very kind man. About a year ago my great-granddaughter died, a dear little child only ten months old. Dr. Thompson was so kind and gentle to all of us that I began to wonder why we were not members of his church."

That is how the movement began. Mrs. Morrell's daughter, Mrs. Jane Velsor; her granddaughter, Mrs. A. P. Bock, and Mrs. Bock's twelve-year-old daughter, joined the church at the same time. Dr. Thompson administered communion to all four at the same time.

Mrs. Morrell was born at Woburn, Mass., in 1804. She is alert and active, and still has her faculties.

BIBLE CLASS TO HAVE PINK TEAS

NEW YORK, Feb. 12.—The youngest women of the Fifth Avenue Baptist Church will wait upon John D. Rockefeller Jr.'s Bible class tomorrow afternoon when there will be a tea and song service at the clubhouse.

Decked in their prettiest aprons and ribbons, they will pour steaming oolong. The idea of having the young women there is Mr. Rockefeller's.

He is doing all he can to make the Bible class as attractive as possible to the young men of the city. Just now his strongest ambition is to increase the membership to 1000 by July 1. In postals, which he sent out yesterday to the 500 members of the class, he says:

"Lots of young men are coming to town every day. We want them to know that they will receive a warm welcome at the class. Tell them so. Just picture the idea of a meeting with 500 present!"

The nearest approach to 500 was at last Sunday's class, when 300 young men attended the regular morning session. Mr. Rockefeller was so elated at the big showing that he urged all the class officers to work as hard as they knew how to get in more strangers. Tomorrow has been designated as students' day in the class, each member being urged to bring some student to the morning session.

NEW MORAL STANDARDS FOR MEN AND WOMEN

DES MOINES, Ia., Feb. 12.—Men and women should be judged by different moral standards, according to the Rev. William Boynton Gage, who made this declaration in an address to students of Highland Park College at Highland Park Presbyterian Church.

Woman's environment offers less temptation and greater protection, according to the Rev. Mr. Gage, and therefore she is entitled to less leniency than man. He believes the present system of two moral standards, against which most ministers of the gospel enter earnest protest, is eminently fair.

"Woman herself is responsible," the clergyman said, "for much of the cynicism by which her sex is regarded by man. The allurements and blandishments of the coquette, the fickleness of the flirt, the slur or neglect of society, account in no small measure for it."

"How often is she weighed in the balance of those temptations which man, in love's name, causes her to face? If she falls man loses his respect for the sex and she loses the respect of society. Her fellow woman throws about her the scarlet robe that makes her a social outcast."

"Knowing this full well, both men and nature join in throwing about her unusual protection in the days of her youth. She does not hear as much profanity as the boy, and certainly does not hear as much evil. Her knowledge of evil and temptation and tendencies are less than her brother's. It is easier for her to become a Christian, and usually she joins the church."

"Under the circumstances, I say it would be most unfair to judge both sexes by the same moral standard. The double standard which prevails today is far more just."

ELOPERS MAKE TRIP IN SPECIAL PULLMAN

BALTIMORE, Feb. 12.—A private Pullman car, stocked with good things to eat and drink, figures in the elopement of John T. Tibbals, a wealthy wholesale commission merchant, and Mrs. Carrie Elserode, who traveled to New York to be married today.

The chartered car containing Mr. Tibbals and his friends, Captain Thomas B. McGee, Charles T. Kriel, Mr. and Mrs. John Boyers, Mr. and Mrs. Frank C. Lehnert, John T. Merrick, Albert Patrick and Clay Brown left Baltimore at 12:34 this a. m.

Mrs. Elserode and her friends were to be met in Jersey City. Nothing is known of her here.

The two were to go to the Little Church Around the Corner, to be married and return for a reception at Mr. Tibbals' fine home in this city tonight. They had not arrived at a late hour.

Grown children of Mr. Tibbals say they know nothing of the wedding, adding that there will be no reception at their home tonight, and that "we wash our hands of the whole thing."

LIFE ISN'T ALL AUTOMOBILE RIDES AND ALL SKATING PARTIES, HE SAYS.

ALAMEDA, Feb. 12.—Rev. P. C. Macfarlane spoke at the Christian Church last night on "What a Daughter Ought to Know." After paying a compliment to the American girl, the pastor announced his text: "Hearken, O daughter, and consider and incline thine ear."

"To many daughters home is a lunch counter, sleeping place and robing room," said the speaker. "It is a place where she wears her old clothes, slouches about with unbuttoned shoes and a bad temper. The rest of the world is a parade ground, where she looks and acts her best. Home is a place for all sorts of relaxations. She loosens the tight places in temper, as well as in her gear, when she gets home."

"Home is the place where a daughter should look to find her happiest hours; it is her Garden of Eden. A daughter ought to know what a mother is. A mother is a woman, which is to say she is more human than man, and more divine."

SHOULD BE A HELP.

"Do not neglect her. Do not refrigerate her. Do not load your burdens upon her, unless you expect to help her bear your burdens. Do not hold yourself aloof from her. Draw close up to her. A daughter should be a help to a mother, not a hindrance; a burden-bearer, not a burden-maker. A daughter ought to know the function of the father. 'Papa is the man who pays the freight,' is the opinion of many a daughter."

"She sails through her girlhood days, spending more or less, as circumstances permit, and papa pays the freight. He is more than that, girls. He is a good fellow. He works hard. He has his troubles, but he doesn't tell them to you. Hunt him up tomorrow night when he comes home and take his paper away from him; sit on his lap, and give him some good old hugs. Do not ask him for anything, just love him a little. Tell him he is the best father in the world. He knows a lot better than that, but he will resolve to try to be, then and there."

DOMESTIC VIRTUES.

"A daughter should know the value

of domestic virtues. She should know how to sweep and dust, to cook and to sew, to cut and to fit. It may be true that her station in life is such that she will never have to do anything of this kind, still, stations in life change most unaccountably at times. That woman who will be the most successful mistress of the servants in her household is the one who knows how the work of each should be done.

"The young ladies of Alameda have an opportunity here to do a great work. Take the stand, girls, that the young man who spends his Sundays out of the church in that license which our indifferent society permits is not a man with whom you can spend your week days. Hold firmly to this, and the number of young men in our churches in the next twelve months will be quadrupled."

NOT AN AUTO RIDE.

"Life is not a skating rink nor an automobile ride, with stops at the roadhouses. Daughters, shun the fast young man. Shun fast society. Shun every appearance of evil. Do nothing you will be ashamed to tell your mother and father and brother. Above all, shun the wine cup. Shun every intoxicating beverage. Alcohol is a powerful moral anaesthetic."

"The first glass is the beginning of the end. When a woman once begins to drink, even in a social way, her future is threatened with either moral wickedness or utter ruin."

"Pitfalls are spread on every hand. Three girls were arrested for drunkenness last week. Two or three poor girls have committed suicide within the last few days. Why? They were tempted and they fell."

"A man who has moved in good society, and who wore upon his breast the badge of the law, is on trial in a sister city for assaulting a poor servant girl, and puts up the defense that he was merely flirting with her."

"Suppose his contention is true, which I do not believe, what was his object? The same, the same. Is the crime the less when the fiend has debauched the poor girl's morals as well as the body? No, it is the greater. The law of the land protects the body of woman. It does not attempt to protect her soul."

MAY BE SUING HERSELF FOR DIVORCE

BUFFALO, Jan. 12.—Henry Mackey, whose wife recently had him declared incompetent to manage his estate of \$200,000, has retorted by bringing an action for divorce, in which he declares that Mrs. Mackey was known in the Buffalo tendarloin as "Handsome Emma, the high-kicker from the fashionable West Side."

In her suit Mrs. Mackey said her husband was known to the under world as "Wine Harry"; that he had been drunk 1600 times during their six years of married life, and she estimated that in that time he had drunk 1725 quarts of whisky in their home alone.

Mackey in his affidavit says his wife constantly importuned him to take her into the tendarloin on slumming expeditions, and when he refused threatened to go with other men. He charges that on one occasion he found her in the slums under the influence of liquor. He alleges that in July, August and September, 1905, his wife committed various improper acts in Buffalo, Ottawa and Toronto, and names correspondents.

Mrs. Mackey in her denial and counter-charges repeats allegations which came out on her husband's trial for competency.

At the hearing in the competency proceedings Mrs. Mackey testified that on a trip to Europe Mackey became intoxicated in New York and went on spree in Cherbourg, Paris, Berlin, Brussels and London; that he drank heavily on the steamship returning to New York and arrived in Buffalo collapsed. Mackey was declared incompetent and has appealed. No committee to take charge of his estate has been appointed. Should Mrs. Mackey be named as guardian of her husband's estate and person she will be in a queer situation in the divorce case, the action reading Emma Mackey as committee against Emma Mackey.

COLLEGE GIRL READY TO WED

NORTHAMPTON, Feb. 12.—The bashful wooer needn't be afraid of the college graduate girl hereafter, for she's just as ready to wed as any other girl if the right man comes along.

President L. Clark Seeley of Smith College says so, and he ought to know. He's seen enough girls graduate from his college to be an expert on the intricacies of the feminine mind.

The Smith College girls themselves are hugely interested in President Seeley's report, especially in his grave statement that they're no more afraid of matrimony than their less educated sisters. This statement is part of a stirring defense of higher education for women, in which he says:

"Higher education does not unfit woman for marriage and maternity. Women's colleges take in as pupils those who have suffered from hereditary ailments, from the requirements of fashion and from a low estimate of the dignity and capacity of womanhood," says Dr. Seeley in his report.

"In spite of these drawbacks they have demonstrated woman's physical and intellectual capacity for a collegiate education. Their graduates are better qualified for wifehood and motherhood."

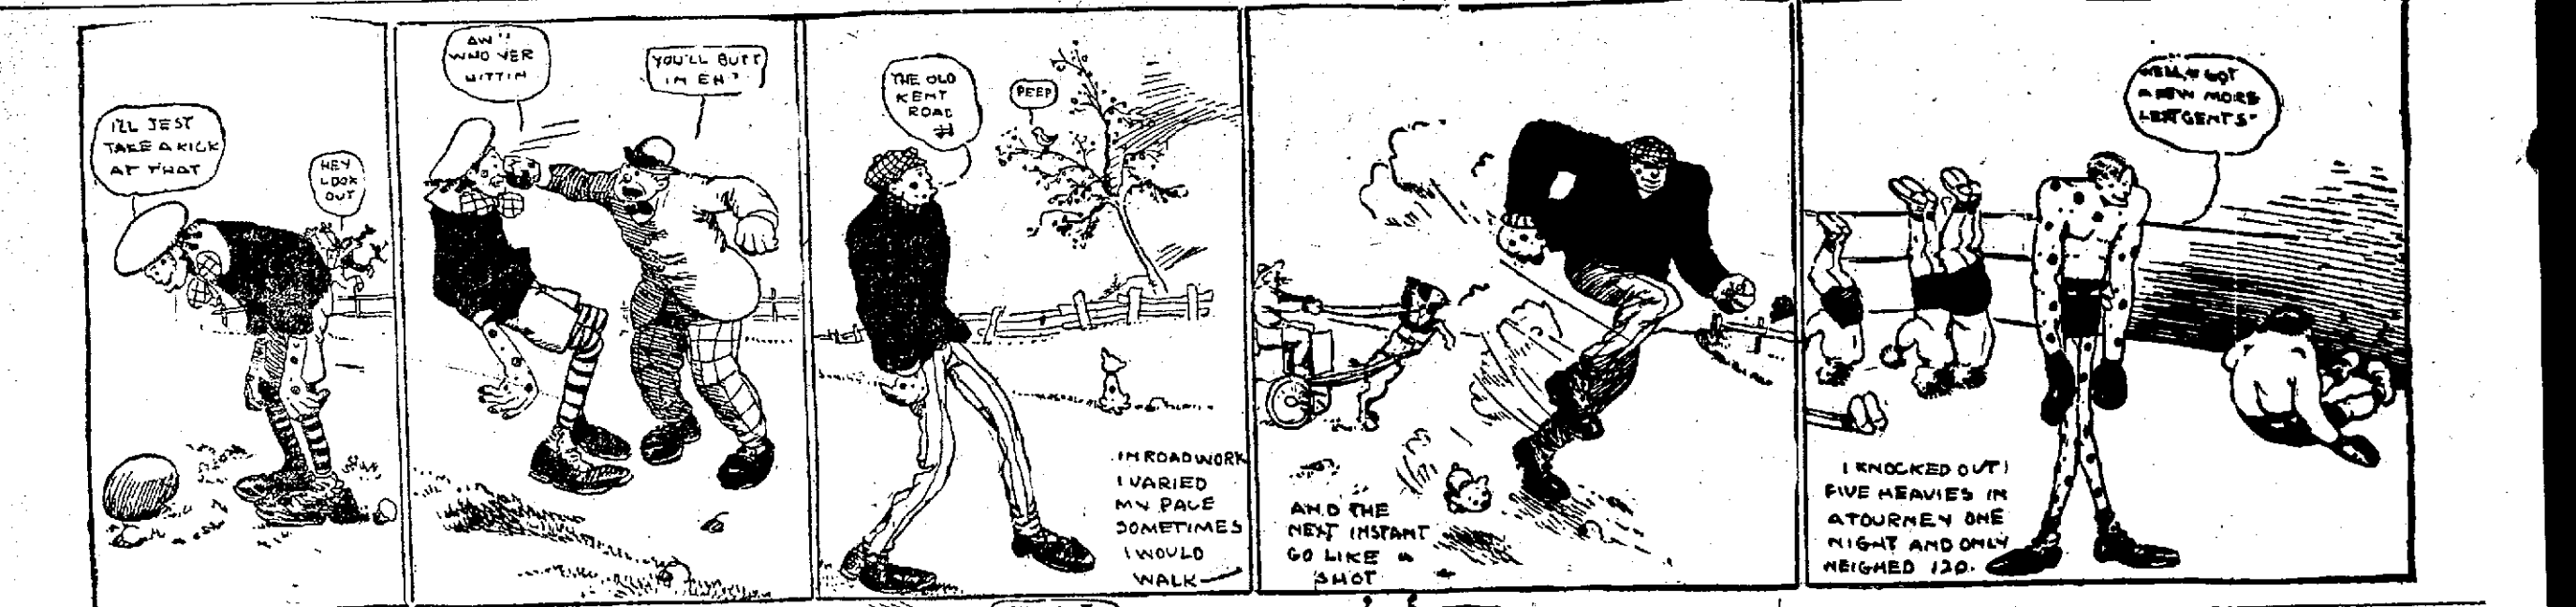

"They are as ready to wed as other women when the right man woos them but many causes now lead men in active life to postpone marriage. Women cannot take the initiative and seek husbands, and daughters, in this country at least, are no longer contracted in marriage by their parents."

"Marriages of convenience are not made as often by college graduates, for they do not feel obliged to marry in order to escape poverty or dependence, and they marry more frequently educated men who desire congenial companionship."

"There are, accordingly, fewer divorces among them. Their children are limited by the same causes which are dominant in the society to which they belong."

"A woman does not become masculine by the same causes which dominant man becomes feminine, by writing poetry, and it would prove a serious defect in the higher education of woman if it were shaped merely with reference to a particular vocation. An undue prominence to marriage and maternity may prove as pernicious as if they were neglected."

HERRERA AND HERMANN LIGHTWEIGHTS' BOGIEMEN

PHILADELPHIA, Feb. 12.—Battling Nelson, to retain his prestige with the public, will be obliged to meet the winner of the next Herrera-Hermann go. That is, providing the Dane puts away Terry McGovern.

Herrera and Hermann are just now the bogie men in the lightweight division. Nelson and Britt shy like startled horses at their very names, and view with alarm their progress.

Herrmann has advanced steadily in the last year. Held by the public as a second-rater, he went to California and arranged a match with Eddie Hanlon, who has been on the cattle train for months. It took Hermann twenty rounds to defeat Hanlon, but the victory gave him a better rating than he ever enjoyed before. Hermann has knocked out Dave Sullivan, Austin Rice and Clarence Forbes, and scored decisions over Charley Neary, Tommy Mowatt and Jack McClelland.

He met Sullivan and Rice, whom they had been past their prime, so the victory over Hanlon must stand as his greatest achievement.

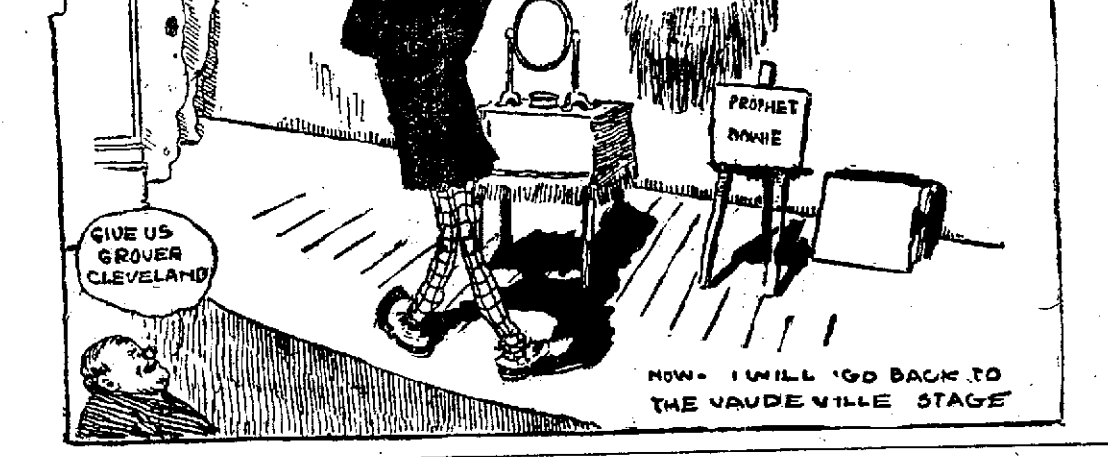

Benny Yanger, Tommy Sullivan, Clarence Forbes and Charley Neary have defeated him, and in a fight with Young Ernie in this city last summer Hermann was held in hand by the Philadelphia boxer.

ERNE OUTPOINTED HERMANN.

Ernie, jabbed and rushed him all over the ring, and was fully 50 per cent cleverer, although Hermann is regarded as a scientific man.

Ernie's friends say that he has improved wonderfully in the last few months, and has more confidence in himself.

The Mexican is a sort of Dr. Jekyll and Mr. Hyde of the prize ring. If he were a

EDDIE SMITH DISCUSSES PROMOTERS AND FIGHTERS

BY EDDIE SMITH.

Just when everything looked bright in Frisco for a good year of boxing, and the club managers apparently all good friends, with the hatched buried good and deep, comes the news that everything is not so smooth as it seems. It seems a shame that those who are in favor with the administration on the other side of the bay, in the matter of getting boxing permits, cannot come to an agreement and run the monthly contests on a cooperative plan instead of continuously fighting over the permits and fighters that are to make up the different cards as they did last year.

This sort of scrapping among the promoters is just what kills the game in all such good towns as San Francisco, and if it goes on this year as it did last, the finish will be the closing down on the art of hit-and-get-away.

Last year should have been a lesson to the managers, as none of those who held fights in Frisco got rich from the prize money. First of all, the boxers got the lion's share of the gate receipts. Then there was no secret made of the fact that it cost something like \$1500 to secure a permit from the Supervisors. This, coupled with the other expenses and the liberal way in which complimentary seats were demanded by those in power, soon ate all the profits up. Alex Greggains, I venture to say, lost money on the year, as he was unfortunate in getting good cards for his shows, and even those he did get cost too much money.

COFFROTH'S DEMANDS.

Now the hitch seems to be over the division of the profits. Jim Coffroth says he wants a little more than an even division, claiming that he considers his services worth something. No doubt most of the patrons of the game will agree with the astute manager, for he certainly has had more success than his rivals.

McGOVERN'S SUCCESS.

Terry McGovern is about the only fighter who had success at this sort of thing. When Terry was at his best, Sam Harris, his manager, found it difficult to keep the "terrible" one busy, and at times agreed to have his champion stop two men in one night. Terry never failed in his attempts and always landed his men, but at that time the name McGovern was enough to put most of the men in the line out of the running.

Big Jim Jeffries tried it in New York with Steve O'Donnell and Bob Armstrong and failed. He was to take each man on for ten rounds, and defeat both in twenty. He took Armstrong first and in his efforts to put the negro away broke his thumb, and at the end of ten rounds Bob was still on his feet.

Jeff did not take O'Donnell on and the crowd went away dissatisfied. Gans, however, seems apparent to me, a considerable talk, so even though the probability of the match is very slim, it will be talked over for some time to come.

Herrera again demonstrated the other night, when he boxed Kid Hermann, simply can't keep the score as he is weakest when fighting clever men. Had the Mexican possessed the bulldog grit of a Nelson or McGovern, and gone after Hermann from the jump, as he did the last time, he would have won the fight. Hermann proved Friday night, as he did in his fight with Hanlon, that he is a clever boxer with only a fairly hard punch. All through the first fifteen rounds he jabbed and outpointed Herrera, and at the end of the fifteenth looked like a winner. In the sixteenth the Mexican came to life and started to mix things. He won had Hermann in a bad way and at the end of the fight the pride of Chicago was all but in.

If Herrera, after being outpointed for fifteen rounds, could go in and in five rounds almost knock his opponent out, the natural inference is that he would have won had he started after his opponent sooner, but as has often been said before, there is just one thing lacking with the Mexican—guess what.

BILLINGS TALKS OF LOU DILLON SCANDAL

NEW YORK, Feb. 12.—C. K. G. Billings, owner and driver of the trotter Lou Dillon in the final race for the \$5000 Memphis gold cup in 1904, when it was alleged the mare was drugged in order to allow Major Delmar, E. E. Smathers' entry, to win, arrived in the city yesterday. He refused to discuss the suit brought against Mr. Smathers by Murray Howe, complainant, for the Memphis Trotting Association, to recover the trophy and \$500, but he authorized the following statement:

"I am neither an official nor a manager of the Memphis Trotting Association, which has conducted the harness meetings during the last few years over a plant known as the 'Billings Park,' in which I am a stockholder.

"I started Lou Dillon much against the advice of the veterinary surgeons and my most intimate friends in order to give Mr. Smathers, the representative of the Memphis Trotting Association, a clear title to the gold cup. When the trophy was handed to him by the judges of the race my interest in it ceased forever.

"If President Jones, Secretary Howe and the other officials of the Memphis Trotting Association are now convinced that a fraud was perpetrated in a contest which took place at a meeting given under their auspices and have evidence enough to prove the charge, it is their own affair.

"Like any other reputable racing body, the Memphis Trotting Association has undertaken to clear its name and bring to justice the perpetrators of the alleged fraud, and if it fails it alone will stand the consequences."

BASEBALL MAGNATES TO MEET THIS WEEK

NEW YORK, Feb. 12.—Baseball magnates of the National and American Leagues will hold the center of the stage in this city during the week beginning tomorrow with a special session of the National Commission, there will be two and three meetings every day for the remainder of the week. It is likely that the case of Jimmy Sebring, now manager of the Williamsport Club of the outcast Tri-State League, and under contract to the Chicago National League Club for the seasons of 1908, 1907 and 1908, will be taken up. Sebring maintains that he has Chicago's permission to manage the Williamsport team during 1906. President Ben Johnson, of the American League, will ask that summary action be taken against Sebring. It is said. The commission will meet tomorrow in the office of the National League here.

On Wednesday the schedule meetings of the two leagues will be held. Since President Harry Williams of the National League and Ben Johnson of the American League have both compared the drafts of their schedules in this city two weeks ago, they have worked hard to cut out some of the conflicting dates that appeared at that time. So well have they fulfilled their tasks that there are now only twenty-four conflicting dates as the schedules are framed, ready for adoption by the two leagues.

NEWCOMER IS WINNING JOCKEY JOHN L. THINKS STAGE NEEDS HIM

Willie Dugan, a recent arrival from Ascot Park, carried off the jockey honors at the Emeryville track last week. Out of twenty-four mounts he scored seven first, five seconds and two thirds—a very good showing, indeed. He is a very capable rider and is in fine form at present.

The rest of the boys will have to look to their laurels if he continues to ride at Emeryville, as he probably will during the remainder of the season. Knapp was in winning form on Saturday and finished the week with five winners, three seconds and six thirds to his credit out of twenty-four mounts.

E. Walsh also made a fine record during the week, with five wins, three seconds and a third out of fifteen mounts. The only other boy to do anything worthy of note was Clark, who got four firsts, five seconds and six thirds out of twenty-nine starts.

The standing of jockeys who have won three or more races at the local track since the opening of the season is as follows:

ONE MORE FATALITY FROM FOOTBALL GAME

RUGBY GAME IS ADMIRIED BY ALL

BERKELEY, Feb. 12.—The Rugby game of football played here Saturday by New Zealand and British Columbia teams has caused favorable comment from all lovers of the college sport.

Faculty members and students alike join in expressing admiration of the splendid exhibition given by the visiting teams, and almost all are concerned as to how best reap benefits from the exhibition, to serve in modifying the present game as played here.

Professor George C. Edwards, chairman of the faculty committee on athletics, has ideas about how this is to be done, but when asked regarding the matter, said his position as a member of the committee of six, appointed by the big intercollegiate committee of nineteen to formulate a report containing recommendations for modifications of the rules, would make it improper for him to say now just what changes he personally would see fit to recommend as a result of having seen the Rugby played by experts here. He said:

WAS EYE OPENER.

"This committee of six includes Professors Angell of Stanford, Prentiss Gray of Berkeley, Mr. Lunsagan of Stanford, Dr. Simpson and Dr. Spaulding and myself. We decided not to make a report until after seeing the game that was played here Saturday. As a result of course, by having seen the game of Saturday.

"I regard the movement to incorporate Rugby features of playing, as called, into our game merely as a return to first principles. We have wandered away from the parent stock and now find it well to call a halt and see how far we have wandered. That game Saturday, fast and superb as it was, would have been immeasurably finer, I think, saw the possibilities in it for fast runs, dozens of them, where in our game one such run is a feature to be talked of for a year after the game.

"We used to play this Rugby game here in the eighties. I am sure our men then were as proficient at it as the British Columbia team showed to be Saturday. I think we could attain the proficiency of the New Zealanders at the game in time. Why not? No reason exists that I can

ASCOT DERBY FULL OF PROMISE MORLEY'S MEN TO REMAIN SAME VAMPIRES WIN ACROSS THE BAY

LOS ANGELES, Feb. 12.—With the baseball season less than two months away, and all league business settled, it can be stated that the team will be practically as it was last year. This is from Manager Morley himself, and while he has a number of letters from ball players in different parts of the country asking for places, he has given none of them any satisfaction as yet.

Frank Dillon will be captain, field manager and first baseman. Ellis, Bernard and Cravath will be in the outfield, as will be the pitchers. The pitchers will be the same as last year, with the possible exception of Goodwin, who is too young. Baum would like to go to San Francisco, but there will be nothing doing in that line for him. Morley expects to make some sort of a bargain with Portland, so as to keep Jud Smith here as third baseman. Flood will probably go to Portland, as he has expressed a desire to stay there, and in this event, Morley would like to place Atz at short and put Brashear at second base.

GREAT VARIETY OF YELPS

NEW YORK, Feb. 12.—Dogs from every point of the compass crowded Madison Square Garden yesterday for the annual bench show of the Westminster Kennel Club which begins today. All the way from San Francisco came fox terriers owned by C. E. Harley, while rivals, the property of J. B. Farwell, had made the trip from Texas. Mr. Harley has sent on a youngster named Wanda Florence, a daughter of Champion Wanda Knight.

In Mr. Farwell's team was Sabine Ruter, which came to the New York show for the third year. Sabine Ruter, Sabine Argent and Sabine Revier.

Three breeds of dogs that have never been exhibited in this city will be shown. They are Rosserich terriers, and German boxers.

A MOTHER'S LOVE.

What Is More Beautiful Than a Mother's Love?

"Who ran to help me when I fell
And would some pretty story tell
Or kiss the place to make me well
My mother."

A mother's worries are many. She sometimes forgets her own bodily discomforts because of her overpowering love for the child. She becomes broken down, sleepless, nervous, irritable and feels tired from morning until night. Many mothers of experience can tell you that at such a time they have been relieved, benefited and strengthened and put into proper health by taking a prescription which their mothers had told them was the best woman's tonic and service to be taken at such times. Dr. Pierce's Favorite Prescription has enjoyed an enviable reputation for over a half of a century. In all that time it has sold more largely in the United States than any other tonic for women's needs, and to-day its sales are greater than ever. Dr. Pierce made up this prescription from native medicinal roots without the use of a particle of alcohol and for the single purpose of curing those diseases peculiar to women and when there is a lack of womanly strength to bear the burdens of maternity. How few women come to this critical time with adequate strength. The reason why so many women sink under the strain of motherhood is because they are unprepared. Is preparation then required for motherhood? asks the young woman. And every experienced mother answers—"Yes." "I unhesitatingly advise expectant mothers to use Doctor Pierce's Favorite Prescription," writes Mrs. J. W. G. Stephens, of Hills, N. H. "The Favorite Prescription is the best preparative for the maternal function. No matter how healthy and strong a woman may be, she cannot use 'Favorite Prescription' as a preparative for maternity without gain of health and comfort. But it is the women who are not strong who best appreciate the great benefits received from the use of 'Favorite Prescription.' For one thing it makes the baby's advent practically painless. It has in many cases reduced days of suffering to a brief few hours. It has changed the period of anxiety and struggle into a time of ease and comfort."

A MOTHER WOULD WISELY.

"Good actions speak louder than words," so, too, does the testimony of many thousands of women during a third of a century passed by more claims not backed by any such record of cures.

Miss Emma Petty, 1126 S. Olive Street, Indianapolis, Ind., Past Vice-President, Daughters of Pioness, Minnesota Council, also Organist, South Baptist Church, Indianapolis, writes: "For several years I suffered with leucorrhoea, which was a serious drain on my vitality, sapping my strength and causing severe headaches, bearing-down pains and a general worn-out feeling, until I really had no desire to live. I had many medicines recommended to me and tried many, but did not get permanent relief until I took Dr. Pierce's Favorite Prescription. In two months I was much better and stronger, and in four months I was well. Have had no more disagreeable discharge, no more pain; so I have never again been obliged to 'Favorite Prescription.'"

I consider it without an equal for all women.

All the ingredients entering into Dr. Pierce's Favorite Prescription are printed in plain English on each bottle wrapper. Dr. Pierce thereby shows that he is not afraid to tell his patients just what this medicine is made of. This is not true of any other medicine especially designed for the cure of woman's peculiar ailments. This "Prescription" is also the only woman's medicine so through druggists that does not contain a large percentage of alcohol; it contains not a drop.

As an indication of the high esteem in which the medical profession regards the chief ingredients of Dr. Pierce's Favorite Prescription, for weak and ailing women, is composed, we have room here to insert only the following:

Dr. John Fife, of Saugatuck, Conn., Editor of the Department of Therapeutics in THE MEDICAL REVIEW, says of Unicorn Root (*Holmans Diosca*) one of the chief ingredients of Dr. Pierce's Favorite Prescription: "A remedy which invariably acts as a uterine invigorator and always favors a condition which makes for normal activity of the entire reproductive system, cannot fail to be of great usefulness and of the utmost importance to the general practitioners of medicine."

"Helenia" we have a medicament which more fully answers the above purposes than any other drug with which I am acquainted. In the treatment of diseases peculiar to women it is seldom that a case is seen which does not present some indication for this remedial agent."

The following are among the leading indications for Helenia: Pain or aching in the back, with leucorrhoea (weak) conditions of the reproductive organs of women, mental depression and irritability, associated with chronic diseases of the reproductive organs of women, constant sensation of heat in the region of the kidneys, menorrhagia, (flooding) due to a weakened condition of the reproductive system; amenorrhoea, arising from accompanying an abnormal condition of the digestive organs and an anæmic (thin blood) habit; dragging sensations in the extreme lower part of the abdomen.

If more or less of the above symptoms are present, no invalid woman can do better than take Dr. Pierce's Favorite Prescription, one of the leading ingredients of which is Unicorn root, or Helenia.

MEN AND WOMEN should have a medical book handy, for knowledge is power. They should know about anatomy and physiology. They should have a book that treats of the sexual relations of both sexes out of and in wedlock, as well as how and where to obtain a safe and reliable method of preventing conception. Has unequalled endorsement of press, ministry, legal and medical professions. The main cause of unhappiness, ill-health, sickly children, and divorce is admitted by physicians and shown by court records to be the violation of the laws of self and sex. GOV. FOLK KILL TWO WHACKS ON TAXES IN CRASH TRUSTS

Says Personal Property Tax Grinds the Poor Man. Theater Train and Street Car Collide, Injuring Twelve. Judge Grosscup Says Many Corporations Are in Suspect Class.

CHICAGO, Feb. 12.—A dispatch to the Record-Herald from Jefferson City, Mo., says:

Governor Folk last night issued an explicit statement of his convictions concerning the abolition of personal taxes in Missouri and shifting of a large part of the burden upon the big corporations. He said:

"It is asserted by some persons that the removal of State taxes from personal property, thus placing upon real estate and corporate monopolies the burden of government, would benefit the rich at the expense of the poor."

"On the contrary, a personal property tax (and by personal property is not meant corporate franchises and privileges) falls heaviest on the poor and the honest."

"The abolition of this tax and putting it on corporate privileges cannot be to the advantage of the rich as against the poor, for the poor man has no monopoly privileges and no corporate holdings."

"Every farmer, under the present system, pays on every cow, horse and hog; every widow or orphan whose estate must go through the Probate Court must pay in full, while too often the man of wealth, having his personality in such shape that it cannot be reached, pays practically nothing."

"Some persons object to corporations and real estate bearing the burdens of State government. But the State gives to corporations, which are artificial creatures of the State, rights of privileges which the ordinary citizen does not enjoy, and it is only just that the State should receive full return in the way of revenue for the powers granted."

CHICAGO, Feb. 12.—A theater train on the Pennsylvania Railroad, running at the rate of twenty miles an hour, crashed into a crowded street car in South Chicago last night, instantly killing two persons and injuring twelve. The killed and injured were all occupants of the street car. The engine and first coach of the passenger train left the rails and were overturned.

The dead: Mrs. William Bacon, South Chicago. Minnie Warsaw, 12 years of age, Chicago.

The injured included the following: J. C. Mack, East Chicago, engineer; severely cut about the head and head. Edward M. Day, motorman of the street car; cut about head and body. C. B. Boller, conductor of the street car; cut about neck and head.

Mrs. Blanche Warsaw, severely injured about the body. Mrs. Louis Lucy, injured internally. W. B. Lynch, injured internally.

The passenger train was a local leaving Chicago at 11:34 p. m. for East Chicago, Ind. It was well filled with passengers, who were sent to the nearest police station and physicians were summoned to aid the injured.

The engineer of the passenger train and the crew of the street car were placed under arrest.

NEW YORK, Feb. 12.—Lecturing on "The Individual Man," Judge Peter S. Grosscup of Chicago expounded yesterday to a large audience in the People's Forum at New Rochelle, his scheme for popularizing the corporations. The audience seemed intensely interested. William M. Ivins, who was the Republican nominee for Mayor last fall, presided and added local color to Judge Grosscup's theme.

"The wrong of the corporation," said Judge Grosscup, "is not in the corporation itself but in the public policy of the State and National Government that has permitted the corporation to become the exclusive right of a few people. If, when these great transformations were taking place, there had been carried with them the interest, the proprietorship, the co-operation of the men whose places were being taken—of course, the shoemaker had become a part proprietor in the shoe factory—none of this outcry or cause for outcry would exist. But such was not the case, for some reason or other for some reason which is a very good reason, looked back at retrospectively."

"After speaking of public lands as related to corporations, Judge Grosscup continued:

"We must invite our citizenship back to first principles. I do not wish to be understood as being against wealth or the wealthy man. The man who has by the force of his character, by honest endeavor, driven his estate to the side, ray, to millions, has my unbounded respect. I would, however, have laws enacted which would place proper safeguards around the corporation to see that it was legally managed, and to simplify the routine, the issuance of stock and so on, so that the man in the ordinary walks of life could understand the conditions."

Many of the corporations have long been in the suspect class," he added.

PLAN A BANQUET M'CALL TO ILL TO GO TO COURT

ALAMEDA COUNTY SOCIETIES TO HONOR THE IRISH FORMER PRESIDENT OF NEW YORK LIFE SAID TO BE VERY SICK MAN.

The committee which has in charge the arrangements for the reception to Dr. Douglas Hyde, who will arrive in San Francisco this evening, and who will lecture at the University of California on Wednesday, Thursday and Friday of next week, has planned a banquet in honor of the distinguished visitor, that he may have an opportunity to visit the city and Alameda county. The place and date of the banquet have not yet been decided upon, but it will be held either immediately before or after Dr. Hyde's lecture at the Macdonough Theater on the evening of March 1.

The general committee in charge of the reception met yesterday afternoon in Maple Hall, where Hugh Hogan, chairman of the committee, presided. The purpose of the sub-committee, to whom the details of the reception, the lecture and the banquet will be entrusted.

The members of the committee in charge of the preparations for the banquet are the Rev. J. B. McNally, M. J. Keller, T. J. Eickelton, E. T. Connelly, and the following were named as chairmen of the other sub-committees, the membership of which will be decided by the general committee.

General committee: Hugh Hogan; reception committee: M. J. Keller; finance committee: Daniel Crowley; hall committee: Rev. J. B. McNally; press committee: M. A. McInnis; lecture committee: Rev. P. C. York.

The chairman and members of all the sub-committees were given full power to act, with instructions from the general committee, that their reports be approved by the latter.

The next meeting of the general committee will be held at Maple Hall at 6 o'clock on Tuesday evening, February 20, by which time it is expected that all the preliminary details of the reception will be complete.

BAD BLOOD WEAKENS THE SYSTEM AND INVITES DISEASE

Every part of the body is dependent on the blood for nourishment and strength, and when from any cause this vital stream of life becomes impoverished or run-down, it invites disease to enter. No one can be well when the blood is impure; they lack the energy that is natural with health, the complexion becomes pale and sallow, the vital energies are at a low ebb, and they suffer from a general broken-down condition of health. The system is weakened and unable to resist the diseases and disorders that are constantly assailing it. The Liver and Kidneys, failing to receive the proper stimulation and nourishment from the blood, grow inactive and dull, and the waste matters and bodily impurities that should pass off through these channels of nature are left in the system to produce Rheumatism, Catarrh, Sores and Ulcers, Skin Diseases or some other blood disorder. When the blood is in this weakened and diseased condition it should be treated with a remedy that is not only thorough, but gentle in its action. S. S. S., a purely vegetable remedy, made of roots, herbs and barks, is just what is needed. It not only cleanses the blood of all impurities and poisons, and enriches and strengthens it, but gently builds up the entire system by its fine tonic effect. S. S. S. reinvigorates every member of the body, gives tone and vigor to the blood, and as it goes to the different parts, carries robust health and strength. S. S. S. acts more promptly and gives better results than any other medicine. It cures Rheumatism, Catarrh, Sores and Ulcers, Skin Diseases and all other blood disorders, and cures them permanently. Our Medical Department will be glad to give advice without charge to all suffering with blood or skin diseases. Address

UNIVERSITY FARM SITE GEORGE W. FOSTER ON THE ROAD TO BIRTHDAY SOCIAL EDITORIAL TILT CAUSES A REPORT IS MADE PASSES AWAY BETTERMENT A SUCCESS FALSE ALARM

Professor Wickson Recommends Land for Purpose in Contra Costa County.

BERKELEY, Feb. 12.—President Wheeler, Professor Wickson and Secretary Henderson returned today from Sacramento, where they heard the report of Professor Wickson, Saturday, upon the lands he has examined in the search for a proper University farm site.

Professor Wickson, in a lengthy report to the commission, stated that he had not been improperly influenced, nor had he attempted to influence or bribe him made in connection with any of the properties he described in his report.

He explained the stories of a bribe offered to him by saying that such an offer was contained in a letter sent to him from Napa county a few weeks ago, in which the writer offered land and suggested that a commission might be paid to Professor Wickson if a sale was made to the State. Professor Wickson prefers to regard the letter as from an irresponsible person and to minimize its importance by ignoring it. He retains his original notion that the percentage of highlandness is large when only one such improper offer, out of seventy made, was recommended by him.

The commission heard Professor Wickson's report, which included a practical recommendation in favor of the Burgess property in Contra Costa county, and decided to meet next Saturday to settle the matter, meeting various sites.

REPORT IN PART.

Professor Wickson's report was in part as follows:

Gentlemen: Pursuant to your instructions conveyed in a resolution passed by your honorable body at a meeting held in the office of the Governor at Sacramento, November 27, 1905, I beg leave to report that I have discharged the several duties entrusted to me and submit the following findings of fact and conclusions based thereon:

I note first that the resolution afforded specifically assigned several acts which I am authorized to perform, viz:

1. To visit and report upon the comparative availability of the sites offered.
2. To single out and report upon specific localities which the commission can visit.
3. If a locality which is preferable be found to so report even though no sites have been offered, and to inquire regarding other available sites.

In compliance with the foregoing instructions I have traveled 1627 miles by rail, 302 miles by automobile, 105 miles by team, a total of 2034 miles.

SITES EXAMINED.

The following are brief descriptions of some of the sites examined:

ALAMEDA COUNTY.

1. Board of Trade offering portion of valley lands of Meek estate and adjacent hill land; withdrawn.
2. Stanton station; Castro valley; one and one-half miles from Hayward; irrigation, opportunity for pumping.
- (a) Two hundred and forty-seven acres level land; seventy-five acres rolling land; 200 acres hill land—502 acres; \$123,412.
- (b) Two hundred and forty-seven acres level land; 146 acres rolling land; 323 acres; \$112,796.
- (c) Two hundred and forty-seven acres level land; seventy-five acres rolling land—323 acres; \$100,550.
3. Hendon-Sarason tract, Niles road; one and one-half miles from Hayward; irrigation, opportunity for pumping from well; also a small creek claimed to run all the year; 320 acres first-class valley land with some roll in the surface and some rolling hills; \$112,123. Ordinary farm buildings.
4. Peltorff tract, near Russell station; three miles west of Hayward; 320 acres level alluvial soil; 100 acres partly alluvial, partly adobe—320 acres; \$100,000. Ordinary farm buildings.

FRESNO COUNTY.

Kearney tract; east one-half section 17, T. 14 S., R. 13 E., 320 acres first-class level land, fenced and checked with four-year-old stand of alfalfa; siding of Collins branch of Southern Pacific adjacent; station on Collins line one mile distant; gift of M. Theodore Kearney, Esq.

Wentworth tract; 320 acres or more of good irrigated vineyard or alfalfa land on line of Southern Pacific Polkley branch one mile from Clovis; no definite tender.

Fresno Irrigated Farm Company's tract; 320 acres or more on San Joaquin river, six miles north of Collins and west of Haddon; good free loam; commanding situation on river, irrigated from Haddon canal; gift of Fresno Irrigated Farm Company.

CONTRA COSTA COUNTY.

O'Keefe tract; 320 acres, two miles from Concord; 200 acres first-class valley rolling hill land; improvements nominal; no irrigation; \$40,000.

Putnam tract; 405 acres, one-half mile from Hookton; 300 acres level valley; 100 acres rolling upland; irrigable by pumping from creek; 300 acres level valley; \$44,550.

Faddock tract; 317 acres near Pacheco; low level land; improvements nominal; no irrigation, but water very near surface; \$34,870.

Hart and McDonald tract; 387 acres level land, one mile northwest of Concord; eighteen acres of alfalfa, balance dry and grain, with family orchard; water by spring and artesian wells; buildings nominal; \$40,000.

John Lankey tract; 640 acres, between Concord and Walnut Creek; level and rolling arable land; \$75,000.

Pladwell tract; lands of various owners; cost according to choice of owners and acreage.

Meese tract, between Danville and San Ramon; 263 acres; 200 acres first-class valley loam, balance slightly rolling; no irrigation, but irrigable from shallow wells; no specific tender.

Burgess tract; 280 acres almost wholly Walnut Creek bottom and irrigable from good concrete diverting dam and gate in that creek; all riparian rights below the dam being secured; sixty acres bench land above creek bottom, slightly rolling;

AGED PIONEER, IDENTIFIED WITH STATE'S HISTORY, IS DEAD.

HAYWARD, Feb. 12.—George W. Foster, a pioneer of '40, who died in San Francisco last week was buried here Sunday. The funeral was held in San Francisco from a funeral hall, under the auspices of the California Society of Pioneers, the interment being in Lone Tree Cemetery, Hayward.

Mr. Foster was the father of Mrs. D. Chisholm, of this city. He was quite a conspicuous figure in the early history of California, being in business in Sacramento when the Crocker, Huntington and Stanford were prominently before the public. His life in California has been spent in mining and merchandising. He had been out of business for about ten years. Mr. Foster was a native of Boston, Mass., and was 85 years of age at the time of his death.

FIRST SHIPMENTS.

The forwardness of this season, agriculturally, can be seen from the fact that the first shipment of apples from this section on the R. W. was just twenty days earlier than last year. This year's shipment was from the Meek fields, and went via Wells Fargo express to New York. Agent Fisher says he expects the first sharp shipments from this section will be made the last week in this month.

WORK COMMENCED.

Work has commenced on the remodeling of the Hayward Hotel. Contractor Robinson has a force of five carpenters at work and will double the number next week. T. B. Russell has also started on his portion of the work, that of excavating.

WILL GET ROAD.

The people of Castro Valley will soon have a new road leading from the Oakland road to the Castro Valley school house and from the Redwood road to Central avenue. The opposition of two of the property owners on the proposed road has been withdrawn on condition that the road shall be continued to Gull canyon.

SONS AND DAUGHTERS.

The Native Sons and Native Daughters have made arrangements with N. Boree to use the skating rink each Tuesday evening. A few friends outside of the order will also be invited each week.

BASEBALL FOR FIREMEN.

The baseball game for the benefit of the fire department, the proceeds to be devoted towards buying hose wagon and team, will take place on Sunday, February 18. The Hayward Concert Band will donate their services for the occasion. A picked nine from the Foresters and Native Sons will oppose the firemen.

NOTES.

The ladies of Trinity Church give a musical and supper at the rectory Tuesday evening.

William Mullen, who teaches the Christian system of taming wild horses, occupied the pulpit of the Congregational Church, Sunday, in the absence of Rev. Naylor. Those in Hayward who have taken one, say his lessons on how to tame wild horses are most effective. If he could only teach them how to tame wild men as effectively, they would be satisfied.

Between thirteen hundred and fourteen hundred persons viewed the picture of the Santa Madonna at the Free Public Library.

PRIZE WINNERS AT WHIST TOURNAMENT

ALAMEDA, Feb. 12.—At the whist tournament of the Bay Shore Club, one of the interesting events of last week, seventeen prizes were awarded. The prize-winners were: C. H. Bullock, Mrs. A. V. Fisher, George Pfeiffers, Dr. W. J. Hosford, George Graft, Mrs. Suenen, George Rissotto, A. V. Fisher, Miss Edith Bushlach, Roscoe Fisher, Walter Richter, Mrs. J. Malt, Harry Cling, William Rissotto, George B. Walker, L. Palucci, C. T. Peterson.

LUNCH FOR BENEFIT OF BUILDING FUND

ALAMEDA, Feb. 12.—The ladies of the Randolph Memorial Mission, at the West End, are arranging for a lunch and supper for the benefit of the building fund, the affair to be given in the rooms at 1615 Seventh street on February 20. The committee of arrangements consists of Mesdames M. E. Hawk, Houston, Smith, Gray and Miss Remmel.

PLAN TO FORM NEW ELKS' LODGE

ALAMEDA, Feb. 12.—A meeting of twenty-five Elks of Oakland Lodge, interested in the organization of a new lodge here, was held yesterday afternoon in the office of Senator E. K. Taylor, and another meeting, for preliminary organization, is to take place tomorrow evening in the office of Justice of the Peace Fred S. Cone.

About 200 signatures have been secured as charter members. It is now undoubted that the charter for the lodge will be given in the near future and the intention to arrange for a fine clubhouse in Alameda.

ALAMEDA, Feb. 12.—A meeting of the committee of Fruitvale Camp, W. O. W., on the entertainment to be given for the benefit of the Fruitvale Fire Department, report that they have engaged the Blackhawk Hall, 35, on Friday evening, February 15, at the Upper Fruitvale Hall. Charles H. Pinneo and Albert S. Ewing, two of the professional men, have charge of the program. Admission twenty-five cents.

CHEAP SWINDLER IS UNDER ARREST

ALAMEDA, Feb. 12.—A vagrant from Berkeley, arrested here Saturday morning while soliciting alms on Park street and the frequently released on the supposition that he was W. M. McConnell of the college town, turns out to be a cheap swindler.

He had exhibited a past master's jewel with the inscription "presented to W. M. McConnell by the Board of Trustees of the City of U. W. W." When booked at the City Prison, however, he gave the name of "J. M. McConnell."

There have been some learned that the fellow stole the badge from the owner, W. M. McConnell, or came by for some other manner, and that he has been masquerading as the owner of the testimonial of esteem from Heart of Oak Lodge.

DATE OF LECTURE HAS BEEN CHANGED

ALAMEDA, Feb. 12.—The lecture on the Grand Canyon of the Colorado, which was to have been delivered next Wednesday night at the Unitarian Church, has been deferred, as it was decided to change the affair to a ladies' night.

REV. G. D. WATSON TO GIVE LECTURES

Rev. G. D. Watson, D. D., will speak under the auspices of the Christian and Missionary Alliance at the Swedish Mission Church, 1111 Filbert street, at 2 p. m. and 7:30 p. m. daily, beginning Tuesday, February 13 and closing Friday, February 16, except on Thursday evening, when the service will be held at the Penal Mission. All welcome.

MEMBERS ADDED TO MELROSE IMPROVEMENT CLUB AND BUSINESS DONE.

FRUITVALE, Feb. 12.—Notwithstanding the heavy weather, twenty enthusiastic people ventured out to the meeting of the Melrose Improvement Club Saturday evening in Charles Harrison's hall at the corner of High and East Fourteenth streets. All the officers were present.

The proposed rules and regulations for the government of the club were presented, but consideration was postponed until a larger meeting.

A five minute recess brought out eleven new signers to the roll of membership, accompanied by two bits apiece.

On the matter of a culvert under the railroad track to let off the storm water, and to prevent a mosquito breeding place, and also to see about getting the donation of a lot on the Huntington tract for the erection of a town hall, a committee of three was named as follows: President McDonald, A. E. Scribner and G. E. Parker.

Relative to meeting place, a motion to use the basement of the Melrose school house was carried, and Joseph Damman, A. A. Atkinson and G. E. Parker were appointed to fix it up for that purpose.

AS TO SEWERS.

President McDonald, who is a member of Melrose Sanitary Board, reported that the thirty days allowed by law for final action on their bid, expired Friday; the board had turned over the check of \$250 from the city to the contractor, and the sewer work had been started.

The people of Castro Valley will soon have a new road leading from the Oakland road to the Castro Valley school house and from the Redwood road to Central avenue. The opposition of two of the property owners on the proposed road has been withdrawn on condition that the road shall be continued to Gull canyon.

RECEPTION FOR CAPT. HAAS

BERKELEY, Feb. 12.—J. D. Martin of this city is visiting in Los Angeles.

Rev. C. E. Chase has gone to Glen Ellen for a short visit.

Mrs. Fred Dawson of 3108 Grove street is entertaining Mrs. O'Bannon of Marysville.

Mrs. Perry Bartley of Grove street has come to Newark, to her old home, to visit for a few days.

Mrs. J. L. N. Shepard, Miss Eva Shepard and Mrs. A. A. McKullam, left today for London, Canada, where they will visit relatives.

Mr. and Mrs. Herbert J. Campbell have sold their home at 2699 Grove street and will take possession of their beautiful home, now being erected at 2912 Benvenue avenue, about the middle of the month.

LAD DROWNS WHILE YACHTING ON ICE

NEW YORK, Feb. 12.—While ice yachting yesterday on the Navesink river, N. J., Charles Hendrickson, a Fairhaven boy, lost his life by the boat breaking through the ice. He broke through with a thin spot Charles fell into the water and went under the ice. Benjamin saved himself by climbing upon the windward runner, which continued to remain on the ice and was rescued by men in a bateau. The drowned boy was seventeen years old.

PLEASANT AFFAIR IS GIVEN BY METHODISTS AT ELM.

ELMHURST, Feb. 12.—The "birthday" social given by the congregation of the Methodist chapel on Saratoga avenue, Moss tract, Friday evening, was a success in every way. The attendance was large. All present were asked to stand when the name of their birth month was called, those in the month having the largest number of representatives to receive a large cake; those in the month having the smallest number of representatives a small cake, and those in the months between, ordinary refreshments and a good time. The representatives of March got the big cake and those of May the little cake. The Lockwood School Band, with Professor Greenman, its leader, was present and discoursed a profusion of sweet sounds, to the evident delight of every one, and there was also a generous program of recitations and songs.

CHOSEN DELEGATE.

James J. O'Toole was paid a very handsome compliment last Monday evening in Oak Lodge, No. 35, A. O. U. W., in Oakland. It was the occasion of the election of delegates to the grand lodge of the order, which will convene in Santa Cruz on Tuesday, April 19. Oak Leaf Lodge was entitled to five delegates. There were twenty members present and seven were placed in nomination. The first ballot Mr. O'Toole received nineteen votes, which makes him chairman of the delegation.

This will be the fourth session at which Mr. O'Toole has been a delegate. He has long been a member of Oak Leaf Lodge and his services in its behalf are appreciated by the members.

Trip of Stanford Man to Berkeley Responsible for Sanguinary Report.

BERKELEY, Feb. 12.—College journalism was given a distinct shock last night when the news came slithering over the wires from Stanford that Mr. Oppenheimer, editor of the joke paper there called the Chaparral, had come up to Berkeley to punch the face of Samuel Hellman, editor in chief of the college daily, the Call-Born. Vague whispers had been heard on the campus and on the business streets of the town that an encounter of the editors had taken place, but these mild echoes of an alleged sanguinary episode did not serve to prepare the college precincts for the sensational blood curdling dispatch from Palo Alto, which arrived later in the evening.

Oppenheimer, who was attacked by Hellman, editorially, a few days ago, and charged with cowardice for writing an apology to President Jordan during the recent riot there at Stanford, was reported last night to have tackled the editor of the little Call-Born and the Hellman countenance and carved steaks from the Berkeley editor's most vulnerable parts.

Friends of the Berkeley college editor, after hearing these gory reports, were prepared to attend first aid to the wounded, and hunted for such parts of Hellman's remains as might be worth bandaging up.

At midnight searching parties found Hellman taking nourishment at William Henderson's resort, serene, indifferent, satirical, unflinched, witty as of old, philosophic and grave. He was amused and tolerant, cynical yet not severe, inclined to mirth, yet moderate under impulse to laughter, and an embodiment of savoir faire under provocation to the rattle.

Hellman was unhurt.

Briefly, he explained that the reports of Mr. Oppenheimer's encounter of him were like the stories of Mark Twain's death several years ago, "greatly exaggerated."

Oppenheimer came to Berkeley to show Editor Hellman why the apology to President Jordan was made and to ask that a statement from him (Oppenheimer) be printed in the college daily here.

The statement appeared this morning. It explains Oppenheimer's attitude, and exemplifies Hellman's fairness and magnanimity. The Stanford man is accordingly pleased. Hellman is shown as a conservative editor and a square citizen, all parties concerned are satisfied, and the great cause of justice and human rights is advanced exactly three fifths of an inch.
